

Dear Fellow Cancer Fighters:

WELCOME to the WEMO CFC team! Yes, even if reading this is only an inquiry, we consider you a teammate in this battle. *1000 Western Missouri Coaches will be diagnosed with cancer each year!* Wherever reading this leads you in your teammate role, I'm confident you will be a contributor to our mission. It's simply just too important for you not to be.

WEMO CFC was born from a challenge. This challenge - to use my teaching and coaching platform - to join the cancer fight, came from my late wife Valerie. Val was a courageous battler of metastatic breast cancer. I will search unsuccessfully the remainder of my life to find one with greater strength or love for mankind.

The challenge was accepted and a team of talented, empathetic teammates was recruited to lead **our mission: to advocate for and provide resources to cancer victims while connecting the coaching community of Western Missouri.** Our events would not be possible without our directors, clinic chairs, volunteers, guest clinicians, sponsors, and donors. Whatever we accomplish has been; is, and will continue to be, a team effort.

I hope your WEMO CFC experiences are filled with education, fellowship, and purpose. Your contribution supports our mission and is appreciated. A sincere thank you for your part in joining this fight.

Fighting Together,

Bob Coffey
President
WEMO CFC

"Any good and noble deed requires sacrifice"
